

# TCG Tracker, sprint 4, completion date: 12/03/24, revision number & revision date: 11/19/24

## Goal

This sprint aims to finalize our website by adding features to help the user navigate our website to increase simplicity.

## Task listing

- **User Story 4.1:** As a logged-in user, I want to see how the value of my collection has changed over time so that I can track my growth. [story points: 8]
  - Fetch the prices from the eBay API once the user loads their collection page (4 hours)
  - Graph the user's collection value over a period of time (2 hours)
  - Total for user story 4.1: 6 hours
- **User Story 4.2:** As a user, I want to be able to learn how to be able to search for cards (help page) [story points: 5]
  - Design a help/FAQ page in Figma (2 hours)
  - Implement the page's design (2 hours)
  - Write the FAQs/guides that will be listed on our page (2 hours)
  - Create diagrams that help explain the page (2 hours)
  - Film demo videos to explain how to use our application (1 hour)
  - Total for user story 4.2: 9 hours
- **User Story 4.3:** As a user, I want to be able to view all cards with the same type and set of the cards that I searched up [story points: 8]
  - Add functionality to the buttons to view all cards with the same type/set (2 hours)

- Task to filter the search to return results with the specific filter for type/set (4 hours)
- Add “next page” or number of pages to PokemonCards.jsx: optimize time for loading cards searched (show **x** amount of cards on a page) (1 hour)
- Total for user story 4.3: 5 hours

## Team roles

Alex Yeh: Product Owner

Diane Poeng: Developer

Diego Yanez: Developer

Evan Liang: Developer

Mignot Mesele: Scrum Master

Varun Kanna: Developer

## Initial task assignment
